201 William street, N. Y.

## INTRODUCTION.

---

If merchants, on examining their stocks, frequently find that goods of some particular class have been sold *out*, almost unknown to them, it must necessarily be of importance to know the Manufacturers or Importers from whom such saleable goods can be had on the most reasonable terms. Persons engaged in any line of commerce will, therefore, perceive the utility of *The Merchants' Directory* (late Merchants' Guide), which contains, in every legitimate business, a list of the principal manufacturers and wholesale dealers in and adjoining New York city, each business classified alphabetically, and the business of each merchant explained in a clear and concise manner. Including, also a correct Map and Street Directory of New York, with a table

of distances to the principal cities and towns in the United States and Canadas.

Of its convenience and utility we have the most convincing proof in the approval of business men by a liberal patronage of our first edition, for which we feel thankful.

J. HARFORD, Proprietor.
